

## Disclaimer

We support enjoying life and the responsible consumption of alcoholic beverages. We believe people should always use good common sense around drinking and should act responsibly. Our product is not a replacement for your own good common sense.

We do not support underage drinking, excessive drinking, binge drinking or any other unsafe drinking behavior. Always drink responsibly. DO NOT drink and drive while using this product. NO statements regarding DeTrip®'s ability to lower BAC (Blood Alcohol Concentration) can be taken as guidelines for when a person can drive any type of vehicle. It is the sole responsibility of every single individual to ensure they are under the legal alcohol limit before driving or being in control of any vehicle with or without an engine.

This product does not prevent intoxication, alcohol poisoning or alcohol abuse.

The products offered on this website are not medicines. This product is not intended to diagnose, treat, cure or prevent any disease. As with all supplements, consult a physician before taking our products. If you are suffering from a disease, or medical condition, you should consult a doctor. If you are taking medication and/or have a medical condition, consult your physician before use.

While pregnant or nursing, as with all supplements, consult a physician before taking our product. The information contained in the Company's websites are provided for informational purposes only and are not meant to substitute for the advice provided by your physician or other healthcare professional. Do not use the information available on (or through) the Company's website for diagnosing or treating a health problem and/or disease. Do not use the information available on (or through) the Company's website for prescribing any medication.

In case of any allergies related to any of the ingredients contained in DeTrip®, consult your physician before use.

Statements made by this product have not been evaluated by the Federal Drug Administration (FDA).

## EUROPEAN REGULATION

Our products are nutritional supplements, regarded as such in several European Community countries, which benefit from the free movement of goods within the EU. Under EU regulations, food supplements state they should not be used in replacement of a balanced diet. Consult your doctor or pharmacist if concomitant diabetes treatment or anticoagulants is used.

Not recommended for women with a personal or family history of breast cancer. Should not be consumed by children/adolescents under the age of 12 years.

This food supplement should not be consumed by persons with thyroid disease or by persons who are aware of or have been identified being at risk of developing thyroid disease.

This food supplement should not be consumed if other food supplements containing iodine are also consumed.

You should check the legal status of these products in your country of residence. DeTrip® is not for sale in the UK because the name DeTrip® is regarded as an implied hangover prevention claim and a hangover is classed as a medical condition. DeTrip® is not licensed as a medicine.

All the active ingredients in DeTrip® are naturally sourced. Carefully read all product packaging prior to use. Individual results may vary.

## ®FROM DOCUMENTS

It has the complex formula:

Trade name	:	DETRILUMINO® to be registered
Hazardous components	:	USA Classification HMIS
Occupational exposure limits	:	There are no established guidelines
Density	:	Specific Gravity 2.2 Kg / Litre
Density approximately	:	1.9 Kg / Litre
Packing Density approximately	:	0.95 Kg / Litre

## TOXICOLOGICAL INFORMATION

Acute toxicity	:	Estimated : Oral LD50 > 10 000 mg / Kg
Estimated	:	Inhalation LC50 > 2500 mg / Kg
Skin and eye contact	:	Mild Irritant
Chronic toxicity	:	Not available
Carcinogenicity	:	No data available, according to international standards, to indicate that It may present a carcinogenic hazard IARC Vol. 68
Mutagenicity	:	N.D.
Reproductive hazard	:	Detrilumino had no effect on female rat reproductive performance.

## OTHER INFORMATION

TSCA WHIMS	:	All substances are listed. It is NOT classified as a hazardous waste.  (Canada) Not controlled DSCL ( EU ) Not classified CERCLA Not classified as hazardous. Clean Air Act Does NOT contain class 1 or 11 ozone depleters. Not classified as hazardous according to Worksafe Australia. Canada DSL : all substances are listed. EU Eines & Australian ACIS. All components are listed.
